The Scar Book: Formation, Mitigation, Rehabilitation and Prevention

Andrew C. Krakowski and Peter R. Shumaker
978-1-4963-2238-8

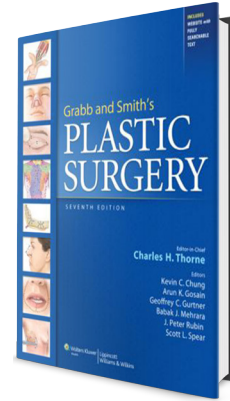

Available from March 2017

A multidisciplinary team of leading world experts presents the state of the art in scar pathophysiology and treatment, breaking down the barriers between medical disciplines to provide unprecedented holistic guidance.

Grabb and Smith's Plastic Surgery, 7e

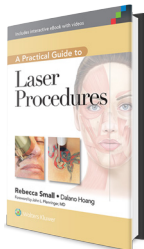

Charles HM Thorne / 2013
978-1-4511-0955-9

Grabb and Smith's Plastic Surgery has long been considered the premier reference for plastic surgery residents and practitioners. This single-volume reference covers all major areas of plastic and reconstructive surgery.

A Practical Guide to Laser Procedures

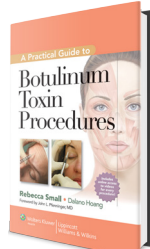

Rebecca Small / 2015
978-1-60913-150-0

This title provides step-by-step instruction for treating sun-damaged skin and other common aesthetic complaints using laser and light technologies.

A Practical Guide to Botulinum Toxin Procedures

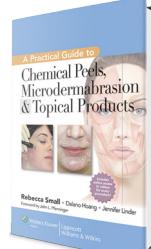

Rebecca Small and Dalano Hoang / 2011
978-1-4511-5508-2

This book provides illustrated instructions on botulinum toxin injection procedures and advice on managing common issues seen in follow-up visits.

A Practical Guide to Chemical Peels, Microdermabrasion & Topical Products

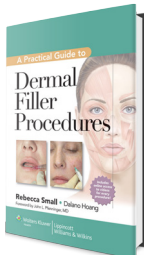

Rebecca Small / 2012
978-1-60913-151-7

Content features step-by-step instructions for chemical peels and other in-office exfoliation treatments and daily home skin care regimens to treat sun-damaged and prematurely aged skin, acne, rosacea, and hyperpigmentation.

A Practical Guide to Dermal Filler Procedures

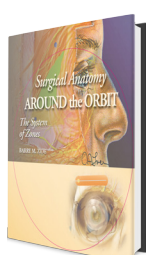

Rebecca Small and Dalano Hoang / 2011
978-986-7364-45-6

Residents or practitioners alike can benefit from this series which focuses on current aesthetic treatments that can be readily incorporated into office practice.

Surgical Anatomy Around the Orbit: The System of Zones

Barry M. Zide / 2005
978-0-7817-5081-3

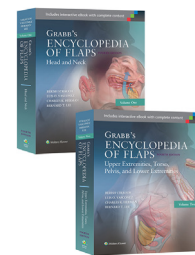

Using his popular concept of facial zones, Dr. Zide depicts the fine anatomic details necessary for today's advanced cosmetic and reconstructive procedures.

Grabb's Encyclopedia of Flaps Package (Two-Volume Set), 4e

Berish Strauch / 2015
978-1-4963-4044-3

**(Can be purchased separately)*

Still the most comprehensive reference available on surgical flaps, this classic combines content from three previous volumes and remains your go-to source for practical, authoritative guidance.

Michigan Manual of Plastic Surgery, 2e

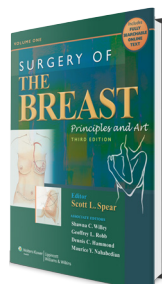

David L. Brown / 2014
978-1-4511-8367-2

The first and only pocket-sized, practical manual on plastic surgery, written by residents in the University of Michigan's renowned plastic surgery training program.

Surgery of the Breast: Principles and Art, 3e

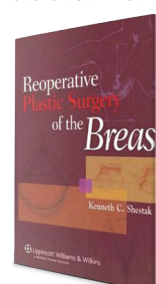

Scott L. Spear / 2010
978-1-60547-577-6

The world's leading surgeons describe and demonstrate the most advanced and successful techniques for all types of general surgery, aesthetic, and reconstructive procedures.

Reoperative Plastic Surgery of the Breast

Kenneth C. Shestak / 2005
978-0-7817-2237-7

This volume demonstrates and explains the problems encountered after reconstructive and aesthetic breast surgery and breast cancer reconstruction and the most successful methods for correcting these problems.
